

# Head Positioning Medical Devices

MG Medical Equipment is a manufacturer specializing in head positioning equipment for more than 30 years. We supply an assortment of devices for maintaining the head in proper, comfortable, relaxed alignment for treatment, examination, or patient recuperation.

Our headrests are used in emergency medicine, dermatology, physical therapy, radiology, oncology, and ophthalmology for treatment in the posterior neck, head, shoulder and lower back.

Our products are all made in the U.S.A.

Fixed Angle Osborne

## Disposable Paper Covers and Replaceable Polyfoam Pads

For best long-term use of MG head supports and to protect patients we recommend the use of disposable paper covers. This absorbent tissue has been pre-cut to fit all headrests, and are available by the Box of (100 sheets/box) or Case (6 boxes/case).

Precut paper is available for all Osborne and Duncan supports.

Replacement polyfoam pads are also available for all Duncan, Osborne and Supine Head Supports. These pads are easily detachable and replaceable with ongoing use of the headrests. With open cell foam the pads are radio-translucent. Replacement pads are sold in boxes of six.

## Disposable Paper Covers
